## Friends Til The End Pdf 11

December, 2004

Dear Brothers and Sisters of the Messiah,

SHHHHH!

Let's surprise Jesus this year for his birthday.

Let's throw him a party and give him a gift he'll never forget!

The party – or rather the parties – happen during the week of his birthday, and there are five to choose from:

Thursday, December 23, at 7pm – Christmas Eve EVE! This is a party for the folks who may be traveling or would rather be home away from the crowds on Christmas Eve. It will be like our Sunday night service with the worship band leading us in Christmas celebration.

Friday, December 24:

- + 5pm – Children's Service. 55 minutes of celebrating Jesus' Birthday and Holy Communion with our youngest, smallest, and wiggliest members in mind.
- + 7pm – Rite 2 Festival Eucharist with incense, the choir, and candles for all.
- + 10:30pm – Rite 1 Festival Eucharist with the choir, candles, and a peaceful end to this "Silent Night."

Saturday, December 25, at 10:30am – Christmas Morning Simple Celebration. Holy Communion with Jesus, me, my guitar, and your Messiah family.

I hope you'll surprise Jesus for at least one of the parties. And please bring friends. There's nothing our Good Shepherd likes more for his birthday than to have a couple of his lost sheep at the party!

Finally: if it's a birthday party, what present do we bring for the Birthday Boy?

Jesus doesn't want our "stuff" for his birthday. He wants US! So as we come to one of the parties this year, let's present ourselves to him: "our souls and bodies as living sacrifices."

And say, "Happy Birthday, Jesus! I'm yours!"

Grace and peace,

*Tom Rutherford*

General Australian bonds, government bonds, safe haven bonds, treasury bonds, paper bonds, government papers bonds, treasury bonds are bonds issued by Australian financial institutions including Australian governments, .There are many resources that you can receive to build a playable map: (1) The map can be a playable version of the finished map, which is simpler than coding a playable version. (2) The map can be a playable version that you have to code, which means you have to take the long way of creating a playable version instead of simply copying and pasting a already made playable version. The last option is what I do when I have a new map. I found a map and started playing it, so I copied the map from the game, turned it into an html file, and then I could play with it. First, I uploaded it to a popular mapmaking site: It did not work there. Then I found an iterview site: I put it on there and I could see the map. My next problem was that when I was trying to play it, a pop-up window showed up saying that the map had not been found on your computer. I am not sure if I am supposed to link the map to the 82157476af
