About This Game

SpellFront is a first person action in which you play as a mighty sorcerer. On each step of your journey you will be discovering new spells that can help you to defeat enemies and go further in your path. Rise from your slumber to defeat unstoppable horde of extraterrestrial foes. During three big stages you will be exploring ancient ruins to find the ultimate weapon and stop your enemies once and for all.

- Every spell is a unique weapon that has a special role in the battle: crush your opponents from afar with help of Devil Hands, lure them into electric traps using Spheres of Thunder and destroy them in packs with Acid bombs.
- Challenge the diverse cast of enemies: from combat robots to stone golems.
- Use your spells to influence your surroundings. Use your surroundings to win the battle. You can destroy floor under your enemy feet, throw explosive at them using your telekinesis, or electrocute water to stun multiple enemies at once.
- You may face with dozens of foes in one fight. So be prepared to change spells on the run and adjust your tactic!

-
- Choose suitable spells to find secrets, traverse traps and solve puzzles. For example, you can use your telekinesis to build staircase from boulders, melt iron bars with Acid Bombs or charge an alien generator using Spheres of Thunder.

Great game for the price. A puzzles only version of Witness, esp the first levels with the line drawing puzzles.

Also I haven't had any problem making a clean exit in Win 10.. dbk games are continuing doing good jobs.. A couple Friends and I tried to get a MP game going to have some fun (being huge SE fans and all) we loved the concept of the game and planet travel ect. but after hours of trying to get it to work it just wouldn't let us, the game kept crashing when trying to load into another persons game, or not letting us connect at all a few times, untill they fix this i won't recomend it, just go play some minecraft till this game improves. FYI the graphics are crap but I'm willing to look past that if the game is fun enough to play.. TL;DR APE OUT is a great game, go play it!

It looks a lot like Hotline Miami (which is one of my favorites by the way), but It's not the same thing. So, it's a top down shooter... or should I say smasher? What you basically do is run, grab things and people, smash them and dodge bullets. In style.

Prepare to go ape♥♥♥♥♥and to die a lot. The ape is not immortal and usually can survive a couple of shots but in some cases you die immediately. So the best way is to avoid the damage. Monkeys don't like it.

The controls are super easy and responsive. There is not much to learn here, but the danger comes from other source. PROCEDURALY GENERATED LEVELS. I'm not a big fan of this approach, but APE OUT is not the game that suffers from it. Even more, randomness makes it quite addictive and adds a point to it's replayability

The game starts on normal mode but you can try the hard and arcade variations of the same stages as well. The visuals are stylish as hell. Remember pop art? I don't. I wasn't even born in 70s. The game looks like an animated poster. wild colors, high contrasts, huge letters and all that jazz.

I liked the soundtrack A LOT!

All this bloody rampage wouldn't be so great without the drum solo. Which is the main and the only theme in APE OUT. It goes really well with the pacing and reminded me of the Birdman movie (which is also great by the way)

Comments :

- You cannot play Multiplayer mode because of very few players playing it.

-
- Game mentality is like Diablo, being repetitive, but changing difficulty makes it competitive.
 - Dungeon based system.
 - Funny crafting and grinding system.
 - Nice cosmetics.
 - Good game according to anime.. I am really loving this game! It is so interesting getting all these different characters while learning Aabout the main characters past through what the villagers are saying. It is wonderful mix of mismatched creativity and mildly gruesome actions. Love the art as well!

Brilliant game, story line and the graphics are very good. Overall the best free to play game I have ever played, on steam. A big thumbs up!. truck mechanic simulator 2015 is pretty much a reskin of car mechanic simulator 2014 :-(but over all very good game:-). So I'm recommending this because it's free - if it cost money I wouldn't. It's not a game, it's a short VR movie. There's no interaction, and frankly even though you are strapped to a chair by a psychopathic robot with a scalpel it's a bit dull. I thought the short film was better, much more horrifying. But this is free, so what the heck!. Three words: Was zum Fick.

. Maybe indie, 2D and retro looking but this game has great potential. Best most realistic and customizable zombie apocalypse sandbox where you can easily die in first day even if you know how to play. Life is easy unless everything will get rotten and fresh water and electricity (fridges) would be cut. After 2 months it's nightmare to survive. Check yourself it's worth the price
